7

How has being a Co-Pro associate benefitted us!?

8

### What advice would you give to orgs wanting to do more co-pro, but don't know how?

Decent staffing resource and time to produce meaningful co-production

Building community and sustainability

Understanding the people, you are working with and making sure to recognise their value, needs and aspirations!

**Seek advice on best practice**

True progression

Done badly all of the above doesn't happen!!

9

### Discussion points

- Is your organisation currently doing co-production effectively?
    - If so, what have the keys to success been?
    - If not, what are the barriers to starting? How could these barriers be overcome?
  - Changing Futures/ SYHA work includes co-design, co-delivery, co-evaluation and co-governance.
    - Which of these is your organisation already doing?
    - Which are the most difficult to implement?
- What more could Homeless Link be doing to support?
